## SENSATIONAL COLLECTION

KOTA BLUE NATURAL -  
Kota Blue limestone has gained much popularity because of its fine shade of bluish-green that adds liveliness to the surrounding. This stone is preferred for flooring and wall cladding, paving and facades of buildings. It is mainly because Kota Blue has the unique properties of limestones.

This Kota blue stone is very tough, non-water-absorbent, non-slip, non-porous, and has excellent stain removability. Kota blue limestone can be cut to any size as per the requirement of the clients.

## KOTA BROWN NATURAL -

Kota Brown limestone has gained much popularity because of its fine shade of brownish-green that adds liveliness to the surrounding. It is mainly because kota Brown has the unique properties of limestones. that makes an excellent building stone because it can be carved easily. The speciality of this kota limestone is in its hardness and it can be used both for interiors as well as exteriors. Brown limestone has minor color variation but within tolerance limit.

This Kota brown stone is very tough, non-water-absorbent, non-slip, non-porous, and has excellent stain removability. Kota brown limestone can be cut to any size as per the requirement of the clients.

## KOTA BLACK NATURAL -

This stone being naturally black as being fully oxidized with the whole bed inside the water. It is a complete replica for concrete paving and gives antique touch because of the presence of ash colour. The wide application for this stone is on country side old cathedral pavements. That makes an excellent building stone because it can be carved easily. The speciality of this kota limestone is in its hardness and it can be used both for interiors as well as exteriors.

This Kota black stone is very tough, non-water-absorbent, non-slip, non-porous, and has excellent stain removability. Kota black limestone can be cut to any size as per the requirement of the clients.

KANDLA GREY NATURAL -  
Kandla Gray Sandstone Silver  
Sand Sandstone is Gray colored  
extremely hard sandstone because  
of the quartz grains being  
cemented together with silica and  
calcite. This is hard wearing  
sandstone. It shares the solid  
modern feel of bluestone and looks  
simply stunning laid around a  
pool. The colors of this sandstone  
are very consistent however still for  
very discerning customers it can  
still be graded in two shades Dark  
Gray & Light Gray. Kandla grey  
Sandstone owing to the natural  
grey shade and because of the  
inherent properties of sandstone

This stone is extremely popular in the construction of paving, huge landscaping projects, window sills, lintels, kerb etc.. It can be cut to any size as per the requirement of the clients.

## RAJ GREEN NATURAL -

Raj Green Sandstone is a mix of light Green tones with hints of brown, buff & plum colored Sandstone. The dense structure of this sandstone makes it durable and quick drying. Raj Green Sandstone suits to the extreme European climate, Raj Green sandstone paving slabs / tiles are frost resistant. They will weather to give a natural appearance enhancing your patio, path or driveway. Raj Green Sandstone can be chiseled and dressed into smooth surface or can be carved into various shapes. It is extensively used as roofing and flooring stones, as well as for paving and paneling purposes.

It is made up of uniform sized quartz grains and other minerals of fairly uniform size and often smooths and rounded. It can be cut to any size as per the requirement of the clients.

AUTUMN BROWN NATURAL - Autumn Brown sandstone is hard-wearing creamy brown sandstone having a mix of brown light and dark brown tones with hints of grey, buff and plum. The dense structure of this sandstone makes it durable and quick drying. It is made up of grains of quartz and other minerals of fairly uniform size and often smooths and rounded. Autumn Brown sandstone paving slabs / tiles are frost resistant. They will weather to give a natural appearance enhancing your patio, path or driveway. Autumn Brown Sandstone can be chiseled and dressed into smooth surface or can be carved into various shapes.

It is extensively used as roofing and flooring stones, as well as for paving and paneling purposes.

It can be cut to any size as per the requirement of the clients.

## CHOCOLATE/MANDANA RED

NATURAL - Chocolate Sandstone is very obtained in buff to brownish sometime reddish hue to present Iron oxides. It is a good choice as it gives a contemporary traditional look. One can go for Chocolate Sandstone to give their home a brand new traditional décor. This is the reason various hotels use Chocolate sandstone accent to give it a modern yet a traditional homely look. The color varies from soft chocolate to light purple. Basically it gives a classic look to any construction form. Natural sandstone are not only durable but also are beautiful to watch. One can get this flooring done in their home, on terrace or outside area of the house like gardening area, pathways or pool side.

It makes the room look elegant and gives timeless style. This is the reason it is one of the most sought after material when it comes to flooring and paving. It can be cut to any size as per the requirement of the clients.

## OLD YORK/DUAL TONE -

Old York sandstone paving is made up of light to dark shades of brown/grey with gentle hues of golden brown running through this natural surface. Old York Sandstone's rustic, natural surface one suited to traditional landscapes designs Old York sandstone paving is a hard wearing natural stone which requires minimal maintenance. Old York Sandstone is ideal if you are looking for a traditional, sophisticated feel to your paved area. Due to the individual characteristics of hand quarried natural stone, each piece has its own unique look and may vary in color, texture and thickness from other pieces of the same type of stone. Kota Desert's decorating versatility remains incomparable.

For this reason Kota Desert sandstone has become many architects' favorite constructing material it makes the room look elegant and gives timeless style. This is the reason it is one of the most sought after material when it comes to flooring and paving. It can be cut to any size as per the requirement of the clients.

**CAMEL DUST/YELLOW BUFF -**

Teakwood Sawn Indian Sandstone is one of our distinct ranges of external paving, and can make a real statement with its bold and flamboyant coloring. It cannot be polished nor can be split. It is smoothly sawn on all six sides to give a totally crisp and clean feel whilst still being firm and non slip underfoot.

RAINBOW NATURAL - Rainbow Sandstone has fine grained quartz, the other mineral compositions impart attractive colors in the form of brown, violet and sometime reddish veins. This Contemporary Rainbow Sandstone is gorgeous ornament that can be used at any location to provide an upliftment to any surrounding whether landscape or interiors. The straight lines and soft, multi-layered hues of Rainbow Sandstone will make a stunning focal point in any garden space.

# INCENTIVE COLLECTION

## KANDLA GREY HONED -

This Honed surface make it smooth & shiny. honing removes the reflective surface in favor of a matte appearance. This surface very known in the market because of its finish. It can either be used for interior or exterior. Kandla Gray Sandstone Silver Sand Sandstone is Gray colored extremely hard sandstone because of the quartz grains being cemented together with silica and calcite. This is hard wearing sandstone. It shares the solid modern feel of bluestone and looks simply stunning laid around a pool.

## HONED

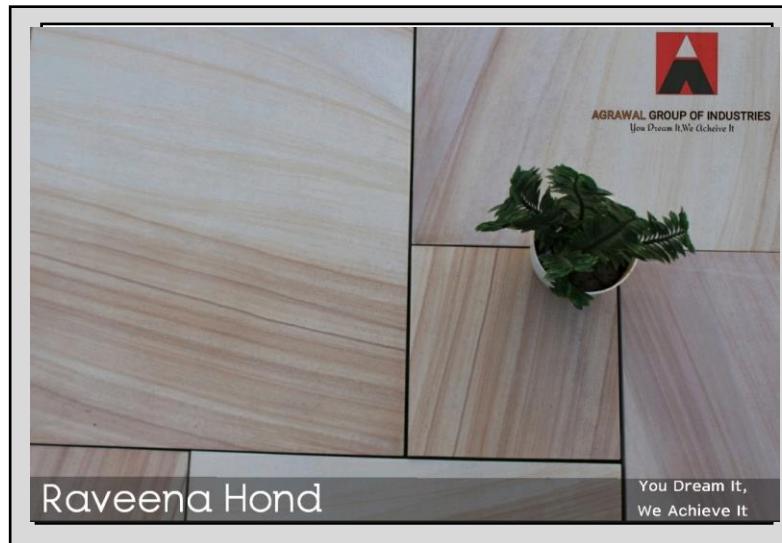

The colors of this sandstone are very consistent however still for very discerning customers it can still be graded in two shades Dark Gray & Light Gray. Kandla grey Sandstone owing to the natural grey shade and because of the inherent properties of sandstone

## RAVEENA HONED -

This Honed surface make it smooth & shiny.  
honing removes the reflective surface in favor of a matte appearance.

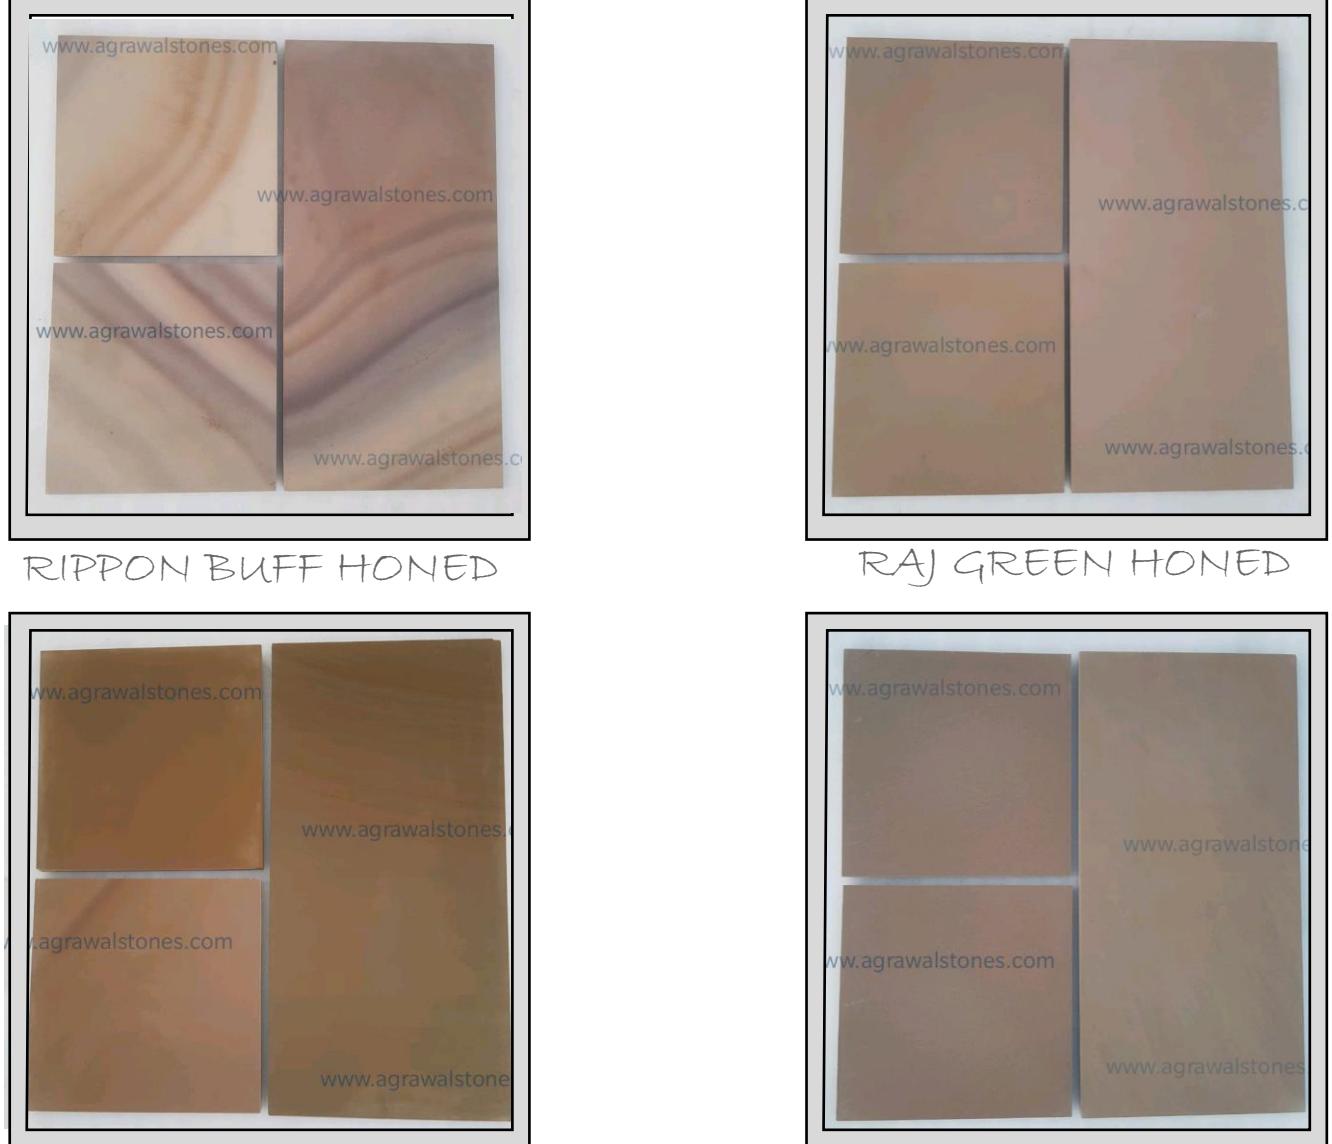

This surface very known in the market because of its finish. It can either be used for interior or exterior.

Tiny black spot on it. Its natural or you can say it's a property of Raveena sandstone. Ravenna natural sandstone is a mix of purplish colours, set against a pale, grey and buff background.

It is very striking, with natural variations of quarried stone. This stone cannot be replicated through man made stone. The variations are varied and bold and it offers something very special. It can be cut to any size as per the requirement of the clients.

Honed means that a stone's surface has been ground down slightly to achieve a consistent, smooth texture and flat, matte finish. For some natural stone types that are naturally polished, like marble and granite, honing removes the reflective surface in favor of a matte appearance

Tumbling of rocks as a lapidary technique for rock polishing usually requires a plastic or rubber-lined barrel loaded with a consignment of rocks, all of similar or the same hardness, some abrasive grit, and a liquid lubricant. Silicon carbide grit is commonly used, and water is a universal lubricant. The barrel is then placed upon slowly rotating rails so that it rotates. The optimal speed of rotation depends on the size of the tumbler barrel and materials involved. Vibratory finishing process can be used instead.

## SHOTBLAST FINISH -

Shot Blasting is a process which is used to clean, strengthen and polish metals. It is one of the processes of "Abrasive blasting". Also most of the abrasive blasting is shot blasting (with metal shots) and sand blasting (with sand) only. This blasting operation refers to the operation of forcibly propelling a high-pressure stream of abrasive material against a surface in order to:

- Smooth a rough surface
- Roughen a smooth surface
- Shape a surface
- Remove surface contaminants

# LAYING PATTERN & SIDES EDGES

Suggested laying patterns:

## Opus

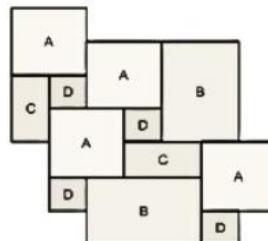

A random laying pattern made up of 5 stone sizes.

$A = 2 \times 200 \times 200$   
 $B = 2 \times 200 \times 400$   
 $C = 2 \times 400 \times 400$   
 $D = 2 \times 400 \times 600$   
 $E = 1 \times 600 \times 600$

## Roman Opus

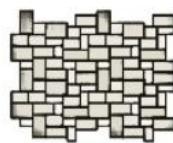

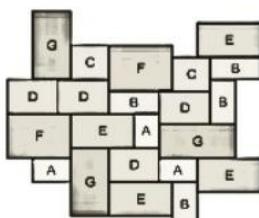

A random laying pattern made up of 4 stone sizes.

$A = 4 \times 400 \times 400$   
 $B = 2 \times 400 \times 600$   
 $C = 2 \times 200 \times 400$   
 $D = 4 \times 200 \times 200$

## Grande Opus

A random laying pattern made up of 7 stone sizes.

$A = 3 \times 300 \times 450$   
 $B = 4 \times 300 \times 600$   
 $C = 2 \times 450 \times 450$   
 $D = 4 \times 450 \times 600$   
 $E = 4 \times 450 \times 750$   
 $F = 2 \times 600 \times 750$   
 $G = 3 \times 450 \times 903$

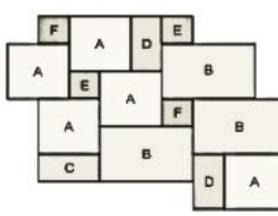

## Set Width x Random Lengths

A random laying pattern made up of courses of even widths and random lengths.

## Trianon Opus

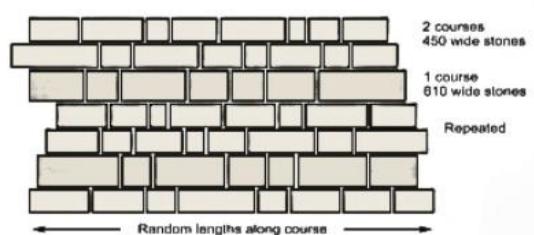

A random laying pattern made up of 6 stone sizes.

$A = 5 \times 400 \times 400$   
 $B = 3 \times 400 \times 605$   
 $C = 1 \times 195 \times 400$   
 $D = 2 \times 200 \times 400$   
 $E = 2 \times 200 \times 200$   
 $F = 2 \times 195 \times 200$

## 450/610 x Random Lengths

A random laying pattern made up of two widths and random lengths.

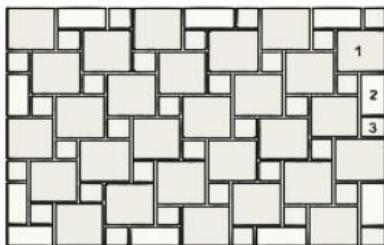

This is to give a guide of the layout and in no way reflects the number or sizes of stones in the mix.

Shapes are only limited by imagination which can be custom made as per your requirement

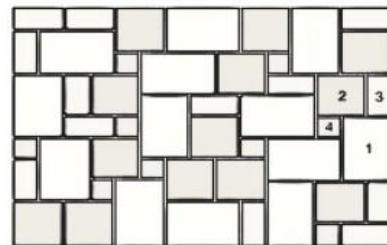

Suggested laying patterns:

Dutch Pattern

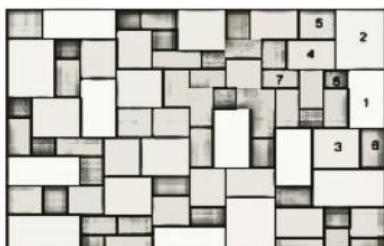

**1** = 28 x 600 x 600  
**2** = 10 x 600 x 300  
**3** = 33 x 290 x 290

Laying pattern in 600 Series - 4 Sizes

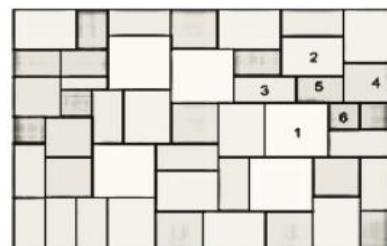

**1** = 13 x 900 x 600  
**2** = 13 x 600 x 600  
**3** = 13 x 600 x 290  
**4** = 9 x 290 x 290

Laying pattern in 560 Series - 8 Sizes

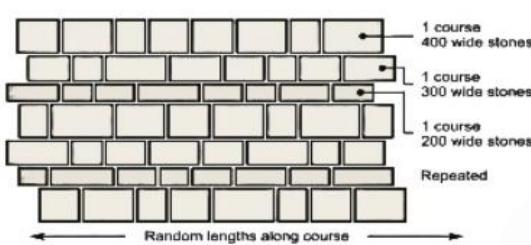

**1** = 7 x 845 x 422  
**2** = 5 x 845 x 560  
**3** = 6 x 560 x 560  
**4** = 8 x 560 x 422  
**5** = 9 x 422 x 422  
**6** = 13 x 560 x 275  
**7** = 18 x 422 x 275  
**8** = 11 x 275 x 275

Laying pattern in 600 Series - 6 Sizes

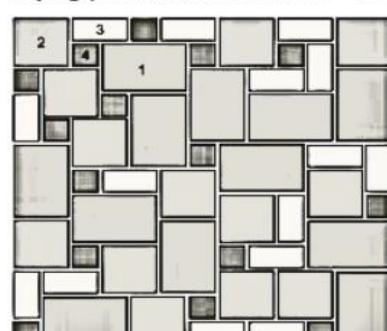

**1** = 6 x 600 x 600  
**2** = 10 x 600 x 450  
**3** = 10 x 600 x 300  
**4** = 10 x 450 x 450  
**5** = 5 x 450 x 300  
**6** = 4 x 300 x 300

400/300/200 x Random Lengths  
A random laying pattern made up of three widths and random lengths.

Laying pattern in 560 Series - 4 Sizes

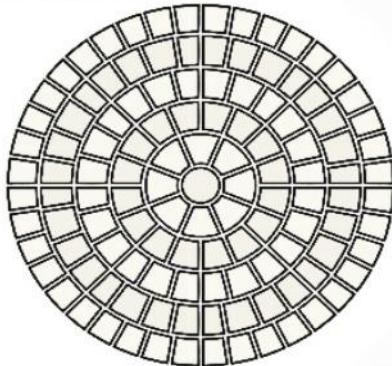

**1** = 12 x 560 x 845  
**2** = 13 x 560 x 560  
**3** = 15 x 560 x 275  
**4** = 15 x 275 x 275

Shapes are only limited by imagination which can be custom made as per your requirement

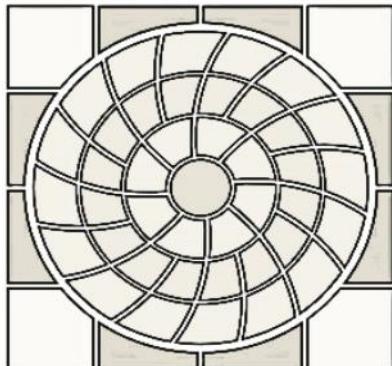

# CIRCULAR KIT PATTERNS

Suggested laying patterns:

Old Rectory Cobble Circle  
1.8m Diameter Circle Kit

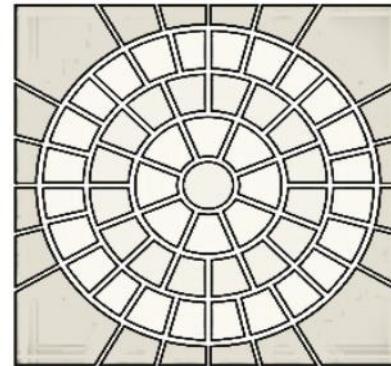

Squaring off kit consists of:

Circle kit consist of:  
A 16 = outer  
B 16= middle  
C 8= inner  
D 1= center

Squaring off kit consists of:  
• 20 = squaring off pavers

3.3m<sup>2</sup> circle with 3.65m<sup>2</sup> squaring off kit

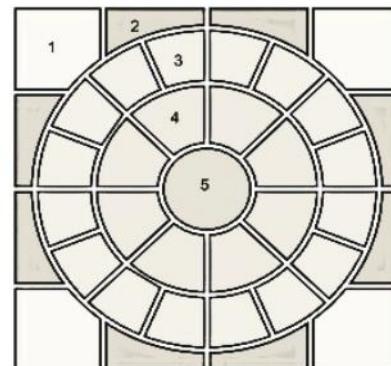

Circle kit consist of:

- A 16 = outer
- B 16= middle
- C 8= inner
- D 1= center

Squaring off kit consists of:  
• 20 = squaring off pavers

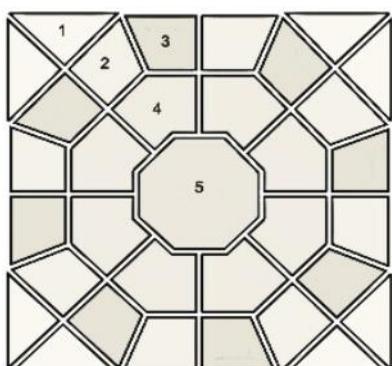

2.46m<sup>2</sup> circle with 2.72m<sup>2</sup> squaring off kit

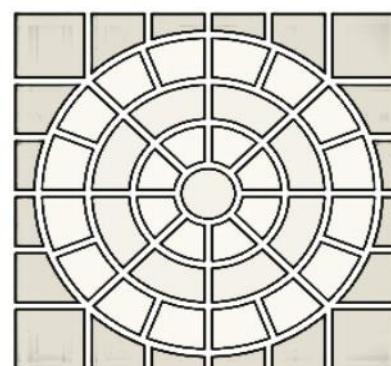

Circle kit consist of:  
A 16 = outer  
B 8= inner  
C 1= center

Squaring off kit consists of:  
• 20 = squaring off pavers

6.25m<sup>2</sup> octagon

Available in:  
Natural SandStone  
kit consist of:  
A 1= center  
B 8= inner  
C 16 = outer  
D 8=Squaring

2.8 Diameter Circle with  
Squaring off Kit finished  
Size: 3.08x3.08m  
4 Corner per kit

Shapes are only limited by imagination which can be custom made as per your requirement

YOU DREAM IT, WE ACHIEVE IT

# EDGES

HAND SPLIT EDGE - Edges are split manually or hand made by hammer & chisel.

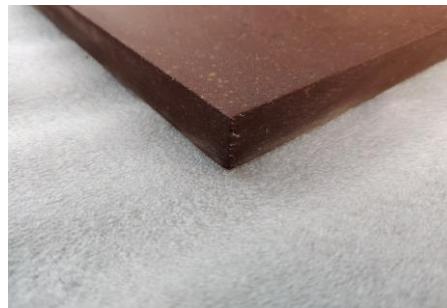

DISTRESSED EDGE - Edges are hand distressed to give a natural worn out look.

TUMBLED EDGE - Its placed in vibrator drum to produce aged & softened edges.

ROCKFACED EDGE - Edges are cut manually by hammer & chisel. Mostly used in Steps

STRAIGHT EDGE - Edges are sharp also known as machine cut.

CHISELED EDGE - Its placed in chain breaker to produce chiseled edges

PROFILE EDGE - Edges are given by using profile cutter (Bullnose, Halfnose, etc.)

BEVELED EDGE - A tile with the top edge chamfered, creating sleek & angled edges

MUSHROOM EDGE - Top of a tile are split manually by hammer & chisel to produce mushroom finish.

# GRANITE COLLECTION

## GRANITE -

is a coarse-grained igneous rock composed mostly of quartz, alkali feldspar, and plagioclase. It forms from magma with a high content of silica and alkali metal oxides that slowly solidifies underground. It is common in the Earth's continental crust, where it is found in bodies called plutons. These range in size from dikes only a few inches across to batholiths exposed over hundreds of square kilometers.

READY TO SAFELY DISPATCH TO PORTS

# GENERAL INFORMATION

## COLOUR

Every efforts has been made to give true representation of colour in these photographs. Due to natural variation in the product, each stone and therefore each floor and wall will have its own unique character and appearance. It is important to view a range of samples to acknowledge the authentic diversity in colours, texture and markings.

## DIMENSIONS

All dimension quoted in this brochure are nominal and are subject to manufacturing tolerance

## STAIN REMOVAL SUGGESTION

These are various products available for stain removal in the market. Necessary safety precautions like gloves and safety glasses should be used while using the same. These products should be kept out of reach of children. We are hereby listing some remedies for Stain removal :

CAUSE	REMEDY
HAIRSPRAY, FRUITS	ACETONE
SHOE POLISH, OIL/GREASE	PETROL ON COTTON WASTE
INK, PENCIL	HYDROGEN PEROXIDE
WINE, ACRYLIC PAINT, DYES	BLEACH
COFFEE OR TEA	DILUTED AMMONIA
RUST	SOLUTION OF OXALIC ACID IN METHYLATED SPIRIT
WATER PAINT	AMMONIA

Kindly note some natural stone pieces may contain small iron content And when in contact with water can oxidize causing rust marks to the surfaces of paving. There are some cleaners available in the markets especially formulated for rust removal.

### Maintenance & Sealers

Regular maintenance is required to keep the overall appearance of the product in pristine condition. General maintenance for internal products simply requires mopping with mild detergent to remove household dust & dirt.

We suggest to use of sealers. There are sealers available to give same appearance, semi gloss, high gloss etc. Kindly read product handling instructions carefully before using it.

### PLEASE NOTE

Our policy is of continual improvement, innovation and Development and as such we reserve the right to change specification without notice. Since it is natural product its availability cannot be guaranteed forever and hence product can be discontinued if it is not available.

## QUALITY & SOCIAL RESPONSIBILITY

### Quality Assured

We are committed to quality and believe that the same can be achieved by proper training, experience more than 30 years and developing right processes for every stages of production. We are approved by an Auditor of Quality Management System Certificacate under ISO 9001:2015 and under IAF

### SOCIAL RESPONSIBILITY

As a leading Manufacturer, processor we are conscious of our Social responsibility and trade ethically. Some of the Ethical working practices which we follow are :

- Child Labour is not used at any stage of production.
- Working condition are safe and healthy.
- Paying Daily wages that meet or exceed national legal standards.
- Workers are treated equally regardless of their sex & religion.
- Bonded labour is not used
- Strickly child labour prohibited
